

# DataCite Member Meeting 2020

*Bringing together the DataCite community in your region*

## General information

**Location:** Virtual (please register to receive the Zoom link):

APAC (Asia Pacific) - Wednesday 21 October 2020 (12:00 - 2.00 PM JST) - Register [HERE](#)

**Chair:**

APAC: Helena Cousijn, Community Engagement Director, DataCite

## Program (Duration: 2 hours)

**Welcome and introduction** (10 mins):

Matt Buys, Executive Director, DataCite

**Polling /Q&A session** (20 mins):

Sarala Wimalaratne, Production Engineering Director, DataCite

- Break (10 mins)

**DataCite member talks** (45 mins):

1. **Building a DataCite consortium**

Andrea Goethals, Digital Preservation Manager, National Library of New Zealand

Andrea manages the digital preservation team and program at the National Library of New Zealand. She has primary responsibility for the overall day-to-day operations of the National Digital Heritage Archive and contributes to the strategic direction of the Library's digital preservation programme. She collaborates closely with others at the Library and around the world to advance digital preservation standards and practices.

2. **Connecting PIDs in Open Research Infrastructure**

Estelle Cheng, Engagement Manager, ORCID APAC

Estelle is responsible for growing the adoption of ORCID, engaging with partners across

sectors and establishing communities of practice in the Asia-Pacific region. Based in Taiwan, Estelle works collaboratively with the regional team to promote ORCID awareness, build strategic relationships and to support best practices of ORCID implementation across the Asia-Pacific region. Before joining ORCID, Estelle served as the product manager for digital object identifiers (DOIs) at Airiti.

### 3. **Measuring richness. A RCT to quantify the benefits of metadata quality**

Scott Edmunds, Editor in Chief, GigaScience/BGI Hong Kong

Scott Edmunds is Editor-in-Chief for GigaScience and an Executive Committee member for Open Data Hong Kong. He has co-founded Citizen Science organisations Bauhinia Genome and CitizenScience.Asia, is on the Board of Directors of the Dryad Digital Repository, and also teaches data management and curation at Hong Kong University. His academic background includes training in Biochemistry at Imperial College and a PhD on the Molecular Pathology of Ocular Melanoma at the Royal London Hospital, where his research mainly focused on Cancer Cell and Molecular Biology. After postdoctoral positions on Cancer Molecular Pathology at the WHO International Agency for Research in Cancer in Lyon and Institute of Cell and Molecular Sciences in London (Queen Mary) he was senior scientific editor for the BMC Genomics and Bioinformatics journals at BioMed Central before moving in 2010 to Shenzhen/Hong Kong to set up the GigaScience journal and GigaDB database for the BGI (the world's largest genomic organisation). Working with the British Library and DataCite, GigaScience published its first data (the genome of the deadly German outbreak strain of *E. coli*) in June 2011.

#### **Break-out session (20 min):**

A chance to ask questions to the speaker and interact with other members

<b>APAC 21/10/2020</b>	<b>Technology breakout 1 (20 mins)</b>	<b>Metadata breakout 2 (20 mins)</b>	<b>Membership breakout 3 (20 mins)</b>
Speaker	Estelle Cheng	Scott Edmunds	Andrea Goethals
Facilitator	Natasha Simons	Mary Hirsch	Matt Buys

#### **Share outcomes (10 mins):**

A summary of what happened during the breakout sessions

#### **Close (5 mins):**

The meeting will be closed by the chair
