The Pillars of Open Hours

Community

The quality of our digital space is determined by its communities. Participate, interact, ask questions and hear the latest announcements.

Roadmap

Contribute your views and opinions in a structured way: help to validate suggestions and provide feedback via different channels to guide the future of DataCite products and services

The DataCite Community

Use the chat 

Unmute to ask questions ? 

Share your thoughts 

Get to know the other participants (introduce yourself) 

Throw some emojis in if you feel like it!  

Agenda: 10 March 2021

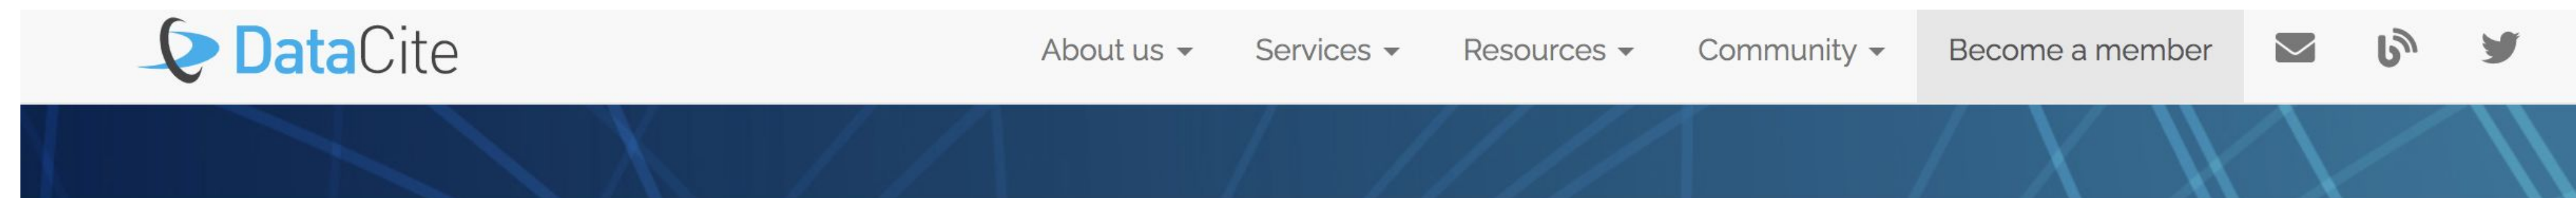

1. Our Roadmap - How does it work (**Mary**)
2. New Releases /progress this year so far (**Sarala**)
3. Present Planned or under consideration features for voting (**Kristian**)

LAUNCHED

New

Batch update for DOIs

18

Suggestion: Enable the ability to update DOIs in a batch via Fabrica.

Examples might be:

- bulk assign DOIs to a list of uploaded metadata

Metadata completeness dashboard

0

Dashboard showing metadata completeness for our members. Dashboards for

- adoption of optional metadata (e.g. description, rights information)
- adoption of linking to external resources (e.g.

New DataCite Website

0

Improve our online presence:

- develop a single look and feel in all our front end services
- consolidate underlying technical platforms used in our front end services

Batch update for DOIs

  18

KRISTIAN GARZA | Posted on Mar 2019

Suggestion: Enable the ability to update DOIs in a batch via Fabrica.

Examples might be:

- bulk assign DOIs to a list of uploaded metadata
- change the URL domain for all DOIs
- transfer DOIs based on search results

Questions

- What is the problem that this new functionality would solve?
- How do you or your organization currently do this?
- [Fill our SURVEY](#) if you want to provide further information.

How important is this to you?

NICE-TO-HAVE

IMPORTANT

CRITICAL

Why do you need this? (Any context you provide will help us make this product better for you.)

Fill in the survey

The survey feedback will help to validate the proposed idea and used to prioritise development work

Portal Voting - New Feature Survey

* Required

For which feature would you like to provide feedback? *

Choose

What is the problem that this new functionality would solve?

Your answer

How would this help your work?

Your answer

Who would benefit from this solution?
