REGISTRY OF RESEARCH DATA REPOSITORIES

DataCite Open Hours

2020

Mission

global registry of research data repositories
(2,500+ repositories registered to date)

covers all academic disciplines

presents repositories and portals for the permanent storage and access of research data sets to researchers, funding bodies, publishers and scholarly institutions.

promotes a culture of sharing, increased access and better visibility of research data

Registration Policy

be [run by a legal entity](#), such as a sustainable institution (e.g. library, university)

clarify [access conditions](#) to the data and repository as well as the [terms of use](#)

have [focus on research data](#)

France Germany United States Netherlands European Union

The Infrared Space Observatory (ISO) is designed to provide detailed infrared properties of selected Galactic and extragalactic sources. The sensitivity of the telescopic system is about one thousand times superior to that of the Infrared Astronomical Satellite (IRAS), since the ISO telescope enables integration of infrared flux from a source for several hours. Density waves in the interstellar medium, its role in star formation, the giant planets, asteroids, and comets of the solar system are among the objects of investigation. ISO was operated as an observatory with the majority of its observing time being distributed to the general astronomical community. One of the consequences of this is that the data set is not homogeneous, as would be expected from a survey. The observational data underwent sophisticated data processing, including validation and accuracy analysis. In total, the ISO Data Archive contains about 30,000 standard observations,

CoreTrustSeal certification recommended

Repository details

PANGAEA

General Institutions Terms Standards

Name of repository	PANGAEA
Additional name(s)	Data Publisher for Earth and Environmental Science
Repository URL	https://www.pangaea.de/
Subject(s)	Oceanography, Geology and Paleontology, Geophysics, Geochemistry, Mineralogy and Crystallurgy, Biology, Atmospheric Science and Oceanography, Geosciences (including Geography), Natural Sciences, Geology and Palaeontology, Geophysics and Geodesy, Geochemistry, Mineralogy and Crystallurgy, Life Sciences
Description	The information system PANGAEA is operated as an Open Access library aimed at archiving, publishing and distributing georeferenced data from earth system research. The system guarantees long-term availability of its content through a commitment of the operating institutions.
Contact	https://www.pangaea.de/contact/
Content type(s)	Source code, Standard office documents, Images, Plain text, Archived data, Audiovisual data
Certificates and Standards	CoreTrustSeal
Keyword(s)	lithosphere, paleontology, atmosphere, ecology, biosphere, land surface, cryosphere, fisheries, agriculture, earth science, environmental science, biology
Persistent identifier(s) of the repository	FAIRsharing_doi:10.25504/FAIRsharing.6yw6cp
Repository type(s)	disciplinary
Mission statement for designated community	https://www.pangaea.de/about/
Research data repository language(s)	eng
Data and/or service provider	dataProvider
